

HELLO!

How many ways can you say "Hello"? Here are a dozen different greetings from the four corners of the globe. Mr. David's favorite opening number.

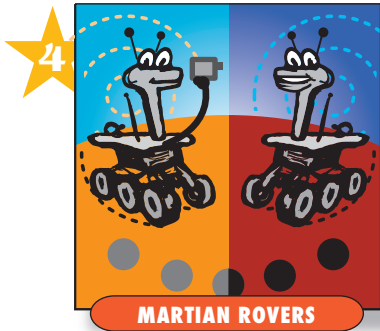

OUTER SPACE PLAYGROUND

An out-of-this-world fantasyland with gravity-defying teeter-totters, rocket-powered pirate ships and a time-warp roller-coaster.

FLOWERS ON THE MOON

Based on a quote from a little boy who figured if his nose were as big as the one on the dog next door, he could smell distant lunar blooms.

MARTIAN ROVERS

NASA's intrepid interplanetary twins, Spirit and Opportunity, join an Elvis impersonator to recount each phase of their exciting mission to Mars.

A PLACE IN THE CHOIR

A celebration of all critters, great and small: some sing low, some sing higher, some just clap their hands or paws or anything they got.

HUMPTY DUMPTY

You all know about the infamous wall incident; but how about Humpty's encounters with the tree, the chair and the fence?

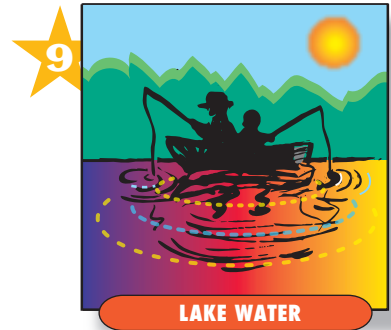

ROCK & ROLL GOLDLOCKS

A tuneful adaptation of the classic tale of that bold little girl who comes to visit, but never knocks. Mmmm... it's just right!

NAP TIME BLUES

Mr. Monkey describes the highlights and lowlights of his day, starting (like lots of blues songs), "I woke up this morning..."

LAKE WATER

A sentimental ode to a beloved natural wonder in the rustic village where Mr. David spent most of his happy childhood.

THANK YOU!

An appreciation for our families, Mother Nature, community, country and more. Graças, Merci Beaucoup! I feel great...and grateful, too!
